## ALLIES THREATEN TO EXPEL TURKS

Refusal to Sign Treaty Will Bring Quick Action, Ultimatum Asserts.

LONDON, July 17 (By the Associated Press).—Refusal on the part of Turkey to sign the treaty, or the failure to give it effect, might result in the Turk being expelled from Europe "once and for all," the allies have warned Constantinople in their reply to Turkish objections to the terms of the pact.

Turkey must announce its decision on the treaty by midnight July 17. The allies' reply, which is virtually an ultimatum, was to be delivered to the Turkish envoys in Paris this afternoon.

The allied reply is couched in the bluntest language, and says: "If the Turkish government refuses to sign the peace, still more if it finds itself unable to re-establish its authority in Anatolia or give effect to the treaty, the allies, in accordance with the terms of the treaty, may be driven to consider this arrangement by ejecting the Turks from Europe once and for all."

**Time for Action.**  
"The allies are clear that the time has come when it is necessary to put an end once and for all to the empire of the Turks over other nations."

The note refers to Turkish "atrocities which started and shocked the conscience of mankind," and cites that it is estimated that since 1914 the Turkish government has "massacred on the mendacious pretext of alleged revolts 800,000 Christians, including women and children."

The allies state they are "resolved to emancipate all areas inhabited by a non-Turkish majority from Turkish rule." The allies decline to make any modification of the terms of the treaty which detach Thrace and Smyrna from Turkish rule, since in minority. The same considerations apply to the frontiers between Syria and Turkey.

**General Terms Stated.**  
The allies also decline to change the provisions which provide for the creation of a free Armenia "within the boundaries which the President of the United States will determine as just and equitable." The general terms of the treaty with regard to administration of the straits must stand as set forth in the treaty, but the allies will permit the Turks, the same as Bulgaria, to have a representative on the commission for the straits.

Among the modifications of the treaty is the withdrawal of the condition by which Turkey was to cede to the allies all Turkish steamships of 1,600 tons gross and upward. The amended clause says the Turks must surrender to the allied reparation commission all German ships transferred to the Turkish flag since April 1, 1914.

The reply says the Turkish government would appear to think its responsibility in war is less than that of its allies and that Turkey, therefore, is entitled to lenient treatment, but the allies cannot accept that plea. The note maintains "Turkey entered the war without a shadow of excuse or provocation, and by closing the straits in the face of the allies, Turkey certainly prolonged the war by not less than two years and caused loss to the allies of thousands of lives and thousands of millions of pounds."

**Long Story of Atrocities.**  
Continuing the note says: "The history of the relations between the ports and the great powers for a long period before the war was one long story of repeated, unavailing attempts to put an end to atrocities in Bulgaria, Macedonia, Armenia and elsewhere—atrocities which started and shocked the conscience of mankind."

"During the past twenty years the Armenians have been massacred under conditions of unexampled barbarity, and during the war the record of the Turkish government in 1915-16, in deportations and in the maltreatment of prisoners, has immeasurably exceeded even its own previous record. It is estimated that since 1914 the Turkish government has massacred on the mendacious pretext of alleged revolt 800,000 Armenians, including women and children, and expelled or deported more than 200,000 Greeks and 200,000 Armenians from their homes."

"Not only has the Turkish government failed to protect the subjects of other races from pillage, outrage and murder, but there is abundant evidence that it has been responsible for directing and organizing savagery against people to whom it owed protection."

**Freedom of Port Guaranteed.**  
"For these reasons the allied powers have resolved to emancipate all areas inhabited by a non-Turkish majority from Turkish rule."

Referring to the provision of the treaty concerning Smyrna, the allied note points out that they will not have the effect of restricting the trade of Anatolia. On the contrary, it declares, the freedom of the port is guaranteed. It contends that the treaty leaves Turkey a national state with a large productive area and that there is nothing in the treaty "to prevent Turkey from becoming a prosperous nation if she reforms."

As to Constantinople being left as the capital of Turkey, the allies say they have grave doubts as to the wisdom of this step in view of the misdeeds made by the Turks of their power in the past.

## STORMS ALABAMA JAIL

**IN LYNCHING ATTEMPT**  
Mob Failing to Get Negro, Charged With Murder, Leaves in Autos.

ANNISTON, Ala., July 17.—A mob of about thirty men and boys stormed the county jail here this morning at 1 o'clock and made an unsuccessful attempt to lynch Emanuel Keith, a negro, held here on a charge of murdering W. T. Lindsey.

The mob broke into the section of the prison called by the jailer and his family and burst open a wooden door leading to the jail proper. Apparently losing courage, the mob returned to the outside and then sought entrance into the jail through the jail doorway. The jailer refused to admit members of the mob, who voiced their displeasure by firing forty or fifty shots into the air. The mob then got into automobiles and dispersed.

No arrests have been made. Lindsey was cremated at the Woodstock furnace. He was killed last Wednesday.

## SOVIET LEADERS "SPLIT."

Proposal for Armistice Creates Disension in Ranks.

COPENHAGEN, July 17.—Reports from Moscow indicate that the British government's proposal regarding an armistice between Soviet Russia and Poland has excited a violent debate among the Soviet leaders. One party is pointing out the excellent position of the Russian army, with its chance of crushing Poland and furthering the cause of bolshevism, while the other party, supported by M. Tschitcherine, the foreign minister, is maintaining that Soviet Russia should come to an amicable agreement with the western powers and restore internal order, says a dispatch from Narva to the Berlingske Tidende.

## MOSLEMS PREPARE TO FIGHT TREATY

Movement Afoot in India to Pull Teeth From Turkish Penalty.

NEW YORK, July 17 (By the Associated Press).—Drastic action, through a "non-co-operation movement," is planned in India among the Moslems, with Hindu assistants, to force the government to take action toward securing such modification of the Turkish peace treaty as will make it more acceptable to the Moslem world, according to advice received here today by the India information bureau.

On August 1, it is stated by M. K. Gandhi, a prominent leader in India of the Satyagraha (passive resistance) movement, the newly devised "non-co-operation" movement is to be put into effect by that time a favorable reply is not received from the Indian government. This movement, should the plans for it become effective, would be carried out in four progressively serious stages, thus: First, giving up all titles and honors conferred by the crown; second, resignation from all government offices and from the legislative council; third, resignation of officers and soldiers from all army duties; fourth, refusal to pay taxes.

The decision to this effect, the bureau says its advice show, was taken at a conference recently held by Moslem and Hindu leaders from all parts of the country. An executive committee was appointed to organize a volunteer corps to collect subscriptions and prepare the Indian public for this movement, to promote which meetings have been held all over India during some time past.

The Moslems, it is indicated, hold that the treaty as it now stands will injuriously affect Moslem prestige all over the world, and their desire is to compel the Indian government to present their demands for its modification to the treaty making powers, and have them made effective. The Moslems also hold that the sultan, as their religious head, should have complete control at Constantinople.

## SURVEY OF KAMCHATKA.

Stockholm Scientists to Make Research of Flora and Fauna.

YOKOHAMA, June 25 (Correspondence of the Associated Press).—An expedition fitted out by the Swedish Society of Anthropology and Geography of Stockholm has left Yokohama to make a scientific survey of the peninsula of Kamchatka. The work will last for at least two years.

The members of the expedition are scientists from the University of Stockholm and are under the direction of Even Bergman. They are prepared for a zoological, botanical, ethnographical, geological and geographical survey of the whole peninsula. The collections will be donated to the Swedish Geographical Society and to the University of Stockholm.

Kamchatka is known to have a rich and varied flora and fauna, but it is comparatively unknown to scientists. The plant life is particularly interesting, as it is unusually extensive for the high latitude, and many of the forms belong to regions much farther south. Birds and animals are numerous, and as far as known are similar to those of Alaska.

## ENGLAND REPORTS RUSSIAN.

LONDON, July 17.—Santori Nuorteva, who recently arrived in England as the emissary of L. C. A. K. Martens, Russian bolshevik representative in the United States, has been ordered deported, according to the Evening Standard, and is now en route to Russia.
